

***DRILLTEC* ACT™ PROTECTORS**

The ACT™ protectors contain PROCADD™, a revolutionary composite resin that combines lightweight versatility with unmatched strength and durability.

DRILLTEC ACT™ PROTECTORS

ACT™ FEATURES

- Offers superior protection to high alloy tubulars which are sensitive to bi-metal corrosion.
- The closed end liftable design prevents hook damage and ingress of debris to either pin or box.
- CNC machined threads offer complete engagement to prevent the protector from stripping or vibrating loose.
- Grease pockets keep moisture and debris from entering the thread or seal areas.

DRILLTEC'S Research and Development Department regularly conducts comprehensive tests to assure that Drilltec ACT™ protectors comply with all provisions of the API 5ct 9th Edition-Annex I.

ACT™ Protectors are available in:

- Sizes 5 1/2" - 9 5/8"
- (CEL) Closed End Liftable Pin and Box Protector
- (CENL) Closed End Non-Liftable Pin and Box Protector

Why compromise your tubular investments? Protect your assets with DRILLTEC™ THREAD PROTECTORS.

All applicable DRILLTEC products are manufactured under strict compliance with API 5CT 9th Edition - Annex I.
