

DRILLTEC SSP™ **PROTECTORS**

The ***DRILLTEC SSP™*** provides premium protection for API tubular goods from damage during transportation and storage.

DRILLTEC SSP™ PROTECTORS

SSP™ FEATURES

- High impact resistant high density polyethylene with PROCADD™ gives impact protection during handling and transportation.
- Complete thread engagement prevents the protector from stripping or vibrating off the pipe.
- Positive seal areas in the pin and box prevent moisture intrusion to critical areas of the thread.
- Closed end design protects the inside of the pipe.

DRILLTEC'S Research and Development Department regularly conducts comprehensive tests to assure that DRILLTEC SSP™ protectors comply with all provisions of the API 5CT 9th Edition - Annex I.

SSP™ Protectors are available in:

- (CENL) Closed End Non-Liftable Pin and Box for tubing in sizes (2 3/8" - 3 1/2")
- (CEL) Closed End Liftable Pin and Box for casing in sizes (4 1/2" - 9 5/8")

Why compromise your tubular investments? Protect your assets with DRILLTEC™ THREAD PROTECTORS.

All applicable DRILLTEC products are manufactured under strict compliance with API 5CT 9th Edition - Annex I.
